# VITA SHOTS

## SUPER B12 - \$35

A superior form of B12! 25% of people cannot convert methylate Hydroxyl to Methyl, thus our Methylcobalamin form of B12 can be totally and rapidly absorbed. B12 increases energy, metabolic rate, and maintains normal function of the nervous system.

## SKINNY - \$35

MICC is a special lipotropic fat burning combination of methionine, inositol, choline, and B12. Each of these ingredients help the body turn fat into energy and are also powerful antioxidants.

## RELAX - \$35

This comprehensive blend of minerals was formulated to promote relief from aches, pains, headaches, stress, and build healthy sleep patterns. Ingredients like magnesium help improve the body's tolerance of stress.

## GLUTATHIONE - \$35

Recognized as the mother of all antioxidants involved in production and repair of DNA, anti-aging, heart disease prevention, healthy brain function, clear skin, and athletic performance. Glutathione is the most critical and integral part of the detoxification system!

## IMMUNE BOOSTER - \$35

This Powerhouse Combo features Vitamin C, Zinc, and our detoxifying antioxidant Glutathione, which works together to fortify your Immune System, to its maximum level of protection! With the shield of the Immune Booster, you can relax and conquer your day, knowing you are protected!

## MUSCLE - \$35

An optimal addition to any workout routine! These ingredients serve as a precursor to nitric oxide, promote vasodilation and increase muscle conditioning by increasing blood flow. This allows for peak recovery and performance.

## VITAMIN-D - \$35

Our Sunshine Vitamin is designed to help alleviate the symptoms of depression, conquer migraines, promote optimal bone health, and support a healthy immune system!

## COQ10 - \$35

COQ10's production naturally declines with age. Among many benefits, it has been shown to improve athletic performance, demonstrate anti-aging effects, and promote cardiovascular health.

## BRAIN BOOSTER - \$35

Experience brain fog? Struggle with productivity? Our highly recommended Brain Booster Shot is the vitamin blend for you. These amino acids play an important role in creating new brain cells by activating "sleeping" stem cells, especially in the areas of the brain responsible for memory and cognition.
